

For people who are planning to visit Kozushima Island

The rainy season is expected to open soon, and the summer season is approaching, which originally promotes the tourism industry.

We have to welcome many customers, but this is the fourth time.

"State of Emergency" has been issued.

Due to restrictions such as repeated declarations, there is a strong desire to touch the nature of the island and refresh it.

However, the "new coronavirus infection" has not yet shown signs of ending, and its infectivity is strong. "Mutant virus" is spreading, and it is a great threat to Kozushima, which has a fragile medical system.

We've decided on the following policy and measures, so that visitors will feel safe to visit us even under the current circumstances.

Like many other places, the Islands' lifestyle changed due to the COVID-19 pandemic. It will take time until the Corona virus is brought under control and managed similar to that of a seasonal virus, such as the flu.

Meanwhile, we would like to continue accepting visitors under the outlined levels of restraint and their associated conditions. We are sorry for the inconvenience that this new way of welcoming guests may cause. We ask for your understanding and cooperation in these difficult times.
